

● HRS (USA) ▲ SHARE (Europe, 27 countries) ■ MHAS (Mexico)

L0 = frozen Asian-pool model; L1 = intercept update (event-rate calibration); L2 = slope recalibration; L3 = full logistic recalibration in target cohort. Dashed red line: O:E = 1.0 (ideal calibration) and slope = 1.0. Dotted grey line: IPA = 0 (null-model baseline). Error bars: 95% bootstrap CI for C-index. IPA = Index of Prediction Accuracy (Nagelkerke-scaled Brier improvement over null model). N: HRS = 10,707; SHARE = 36,352; MHAS = 9,081.
