

○ HRS (United States)    △ SHARE (Europe)    □ MHAS (Mexico)

L0 = frozen Asian-pool model; L1 = intercept update (event-rate correction); L2 = intercept and slope; L3 = full refit in the target cohort.

Dashed red line marks the ideal value (O:E = 1, calibration slope = 1, IPA = 0). Error bars on C-index are 95% bootstrap intervals.

IPA = Index of Prediction Accuracy. n = 10,707 (HRS), 36,352 (SHARE), 9,081 (MHAS).
